SUMMARY

Senior Visual Designer & UI/UX Designer with **4+ years** of experience across branding, performance marketing, digital campaigns, social media, packaging, e-commerce, textile design, and UI/UX. Skilled in building conversion-focused creatives for Meta and Google Ads, landing pages, website banners, and customer-centric digital experiences. Strong background in user-centered design, responsive UI, user flows, information architecture, campaign planning, video editing, project management, and stakeholder coordination. Proficient in Adobe Creative Suite, Figma, Shopify, Wix, After Effects, Premiere Pro, and AI-assisted creative workflows. Worked with 15+ freelance clients and delivered 20+ market-ready projects across multiple industries.

KEY ACHIEVEMENTS

- Improved paid ad **ROAS from 0.7–1.0x** to a consistent **2.5–3.5x** by redesigning creative strategy and testing across Meta and Google Ads.
- **Automated the e-commerce image adaptation** process in Photoshop — previously done manually, image by image cutting cataloging time and speeding up overall delivery.
- Built a **reusable UI template system** for website design, so new pages could be launched by swapping content and images instead of designing from scratch **reducing design turnaround time** significantly.
- **Standardized ad creative templates**, which increased team output and the number of creatives delivered per cycle, while freeing up time for creative research and testing.
- Cut **campaign photoshoot costs** by shifting a major share of visual production to **AI tools (ChatGPT, Higgsfield),** maintaining creative quality at a fraction of the cost.
- Improved **client satisfaction score by 45%** through stronger UX design practices.
- **Led a team** to increase project delivery efficiency by 25% within six months.
- Managed **5+ design projects simultaneously** with a 100% on-time delivery rate.

EXPERIENCE

Senior Associate Graphics / UI/UX Designer

Impulse International Pvt. Ltd. | Gurugram, India

May 2024 - Present

- Own **end-to-end creative delivery for performance marketing** across Meta and Google Ads — campaign assets, landing pages, website banners, PDP/PLP creatives, social media, and packaging.
- Drove **ROAS from 0.7–1.0x to 2.5–3.5x by rebuilding creative strategy** around what actually converts, and iterating continuously based on ad performance data.
- **Automated the e-commerce product image adaptation workflow** in Photoshop, replacing a slow one-by-one manual process and cutting turnaround time across the catalog.
- **Defined and rolled out UI and ad creative templates** that improved brand consistency and premium positioning across all campaigns, while **boosting output and delivery speed**.
- Designed and optimized **website user flows** to make the customer journey simpler and more intuitive, backed by usability testing to validate design decisions.
- Analyzed market and category trends to identify design and business opportunities that fed directly into campaign planning.
- Managed client engagement end-to-end requirement gathering, project execution, and coordination across multiple concurrent creative requirements.
- **Led resourcing** for the design team, assigning tasks, tracking progress, and ensuring every deadline was met.
- **Introduced AI-assisted workflows (ChatGPT, Higgsfield)** into the creative production pipeline, **cutting photoshoot costs** while maintaining creative quality.
- Collaborated cross-functionally with **marketing, product, and account teams** to align design output with business goals.
